# LLOYD'S REGISTER CASUALTY RETURNS

(Merchant Ships of 100 tons gross and upwards excluding non-propelled craft)

## SUMMARY OF TOTAL LOSSES DURING 1972

**Summary.** The total tonnage lost by the world fleet during 1972, (949,336 tons gross), was 81,224 tons less than during 1971 when the figure of more than a million tons was recorded for the first time. The number of ships lost (371) is marginally short of the highest peacetime figure ever recorded. Seventy-five ships, mostly small craft, were under the Japanese flag.

**Foundered.** The number of ships (156) which foundered during 1972 was the highest figure ever recorded. Tonnage lost was 37,948 tons more and the second highest figure recorded.

The largest ship lost was the Greek tanker "TRADER" of 21,469 tons gross, built in 1957.

Also in this category was the wooden coaster "RAPP II" of 148 tons gross, built in 1858, and the oldest ship lost during the year.

**Burnt.** Tonnage totally lost through fire during 1972 showed an increase of 76,379 tons from the previous year and is the highest figure ever recorded. The number of ships lost (63) equals the previous highest figure. Six tankers over 12,000 tons gross were lost including the Greek vessel "PRINCESS IRENE" of 33,403 tons gross, which was struck by lightning whilst in port.

Total losses through fire during 1972 included eight oil tankers; 19 ships were burnt out whilst in port.

The largest ship lost was the passenger ship "SEAWISE UNIVERSITY" (ex-Queen Elizabeth) of 82,998 tons gross which was destroyed by fire whilst undergoing conversion.

**Collision.** Tonnage lost through collision showed an increase of 127,264 tons from the previous year's figure, to a total of 211,241 tons and is the highest figure ever recorded. Forty-four ships were lost during the year.

The largest ships lost were the oil tankers "SEA STAR" of 63,988 tons gross (South Korean flag) and "TEXANITA" of 48,339 tons gross (Liberian flag).

**Wrecked.** Tonnage lost through stranding or striking rocks, sunken wrecks, etc., during 1972 fell by 230,233 tons as compared with 1971's high figure of 433,215 tons. The number of ships lost was 98, twenty-three less than during the previous year.

The largest ship wrecked was the Liberian oil tanker "MARATHON" of 20,564 tons gross.

**Lost.** Under this heading are included total losses which for want of sufficient information, or for other reasons, cannot be classified. The 1972 figure comprises seven ships of 10,669 tons, five of which were the victims of hostilities in the Mekong River.

**Distribution.** The geographical distribution of the total losses during the year is shown in map form on pages 74 to 77.

**Types.** The total number of 371 ships lost during 1972 included 20 oil tankers totalling 334,554 tons gross (35.2 per cent) and 80 fishing craft. Thirty-nine ships were known to be in ballast. Two hundred and thirty-five general cargo ships were lost.

**Size.** Fifty-five per cent of the ships lost were under 500 tons gross whilst the number of ships lost over 10,000 tons gross fell from 23 in 1971 to 19.

**Age.** Eight per cent of all ships lost were less than five years old; 23 per cent were over twenty-five years of age.

**Registration.** The following principal maritime countries suffered the heaviest losses and are shown with the percentage of their tonnage owned compared with 1971.

A percentage comparison for a number of years can be obtained from Table 4.

Lebanon heads the list for the eleventh time in the last fourteen years. Japan suffered the highest number of ships lost (75) whilst Liberia suffered the most tonnage (202,184 tons) lost.

#### BROKEN UP, ETC.

The total tonnage broken up during 1972 (4,994,148 tons) is the highest figure ever recorded, and it would appear that the commencement of a gradual build-up towards higher future demolition tonnage figures may be apparent. The number of ships scrapped, however, fell for the second consecutive year. War-built tonnage laid up in America continues to provide the bulk of scrap.

Countries sending most tonnage to the breakers were the United States of America (1,432,146 tons), Great Britain & Northern Ireland (810,971 tons), Liberia (539,820 tons), and Panama (500,925 tons). Over 22 per cent of the Lebanese fleet was broken up whilst other high proportions were recorded for Cyprus (13.1 per cent), the United States of America (9.5 per cent), Philippines (6.9 per cent), and Panama (6.4 per cent).

Countries which constituted the main centres of disposal as compared with the previous year were as follows:—

	Tons Gross	Tons Gross
China (Taiwan) ... ..	1,716,301	(1,371,263)
Spain ... ..	1,121,568	(913,134)

Italy ... ..	203,343	(219,122)
Turkey ... ..	189,566	(27,776)

Tanker tonnage disposed of amounted to 1,115,917 tons or 22.3 per cent of the total. The largest ship scrapped during the year was the oil tanker "OLYMPIC LAUREL" (24,682 tons); also broken up was "CONTAINER DESPATCHER" (15,461 tons), which was converted in 1967 from an ore carrier for the specialized carriage of containers.

The oldest ship broken up during the year was the Italian iron motorship "STADIUM" (927 tons) which was built in 1877.
